0 Preface

0.1 Document Description

This document describes the full features of the application, Bubroo (version 1.3, updated on October 27, 2024), aiming to clearly define the key features and logical flow of each module.

0.2 Project Overview

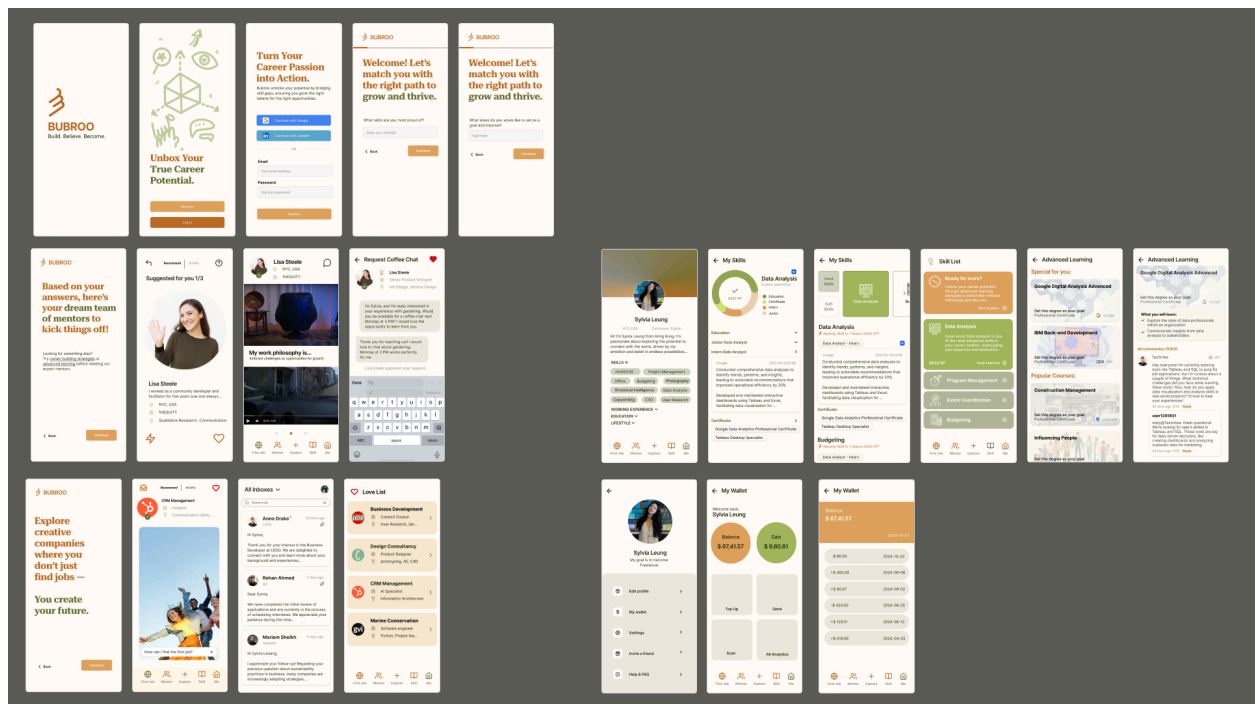

Service Name: Bubroo

Service Type: Mobile Platform (available on both iOS and Android)

Development Period: August 2024 – Present (2 months)

Team Members: Jiajin Li, Sijin Li, Yitong Ding, Junyi Yu, Nicolas J. Lang

0.3 Project Description:

Bubroo is a mobile app designed to address the pressing challenge of personalized career support for early-career professionals and career changers. We empower cross-disciplinary talent, facilitate career transitions, and support young professionals in pursuing non-traditional career paths. Bubroo offers a stress-free alternative to conventional job-hunting platforms, reducing the anxiety often associated with the job search process. Through a skills-first approach, Bubroo fosters career growth and meaningful connections between employers and candidates, helping

businesses tackle unfilled roles due to skill gaps. Our mission is to unlock hidden talent and meet the evolving demands of the job market by focusing on real skills and interests rather than traditional credentials.

0.4 Target Audience:

Early-career professionals, Career-changers, Emerging-enterprises, Educational Institutions

0.5 Customer Journey Map:

Job Seeker

- As a job seeker, I want to save job listings I'm interested in, so I can apply for them later.
- As a job seeker, I want to let recruiters know more about me as a person rather than just as a value provider to the company.
- As a job seeker, I want to be informed about the positions that are aligned with my skill sets.
- As a job seeker who is looking for a job in a different industry from my current position, I want to have a mentor.
- As a job seeker who graduated from a less competitive school, I want to use a platform that is less academically demanding.

Recruiter

- As a recruiter, I want to view applicants who have the same skill sets that are required for the position offered.
- As a recruiter, I want to video chat with applicants conveniently to learn more about them.
- As a recruiter, I want to hire using a platform that is easy to use.
- As a recruiter, I want to understand how new graduates feel about our enterprise.

School (Course Provider)

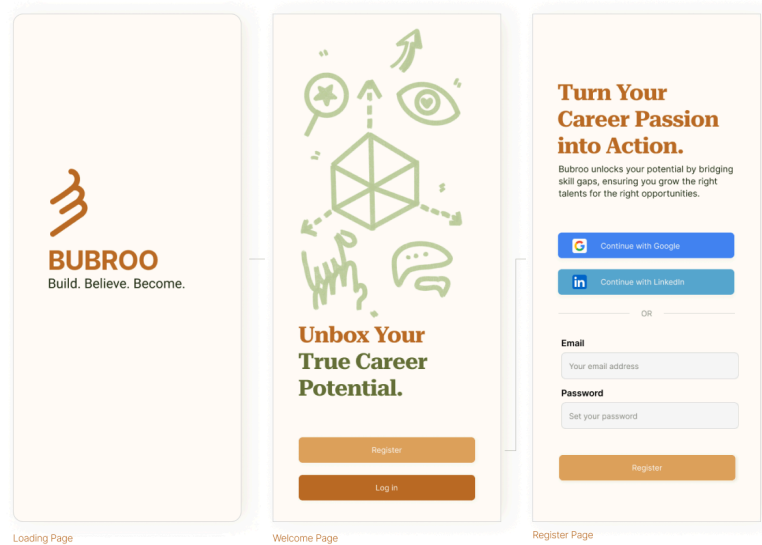

- As a course provider, I want to let job seekers know what types of courses we are offering.
- As a course provider, I want to increase my revenue.
- As a course provider, I want to reduce learners' anxiety when completing courses.
- As a course provider, I want to ensure that the courses I offer accurately match the skills learners expect to develop.
- As a course provider, I want to reward learners for completing courses.
- As a course provider, I want my courses to help more learners who wish to develop their skill sets.

Mentor

- As a mentor, I want to provide guidance to those who struggle in my professional area.
- As a mentor, I want to keep track of my clients after they seek professional guidance from me.
- As a mentor, I want to see how my clients evaluate the service they receive.
- As a mentor, I want to feel a sense of achievement by helping my clients out of dilemmas.
- As a mentor, I want to create opportunities for my clients to exchange ideas and support each other.

Key Features Description

1. Registration Module

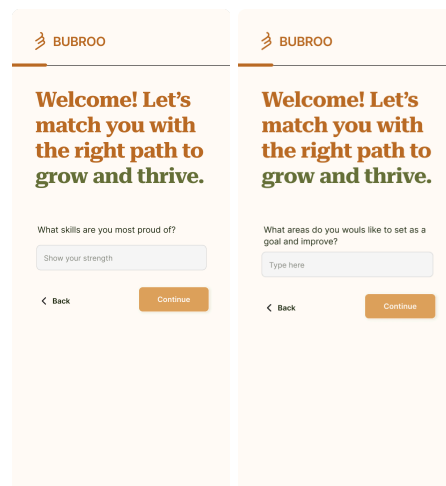

1.1 Register and Log In options at the bottom.

1.1.1 **Register:** Cross-register using Google and LinkedIn accounts.

1.1.2 **Log In:** Users can also register using their email address.

2. Matching System

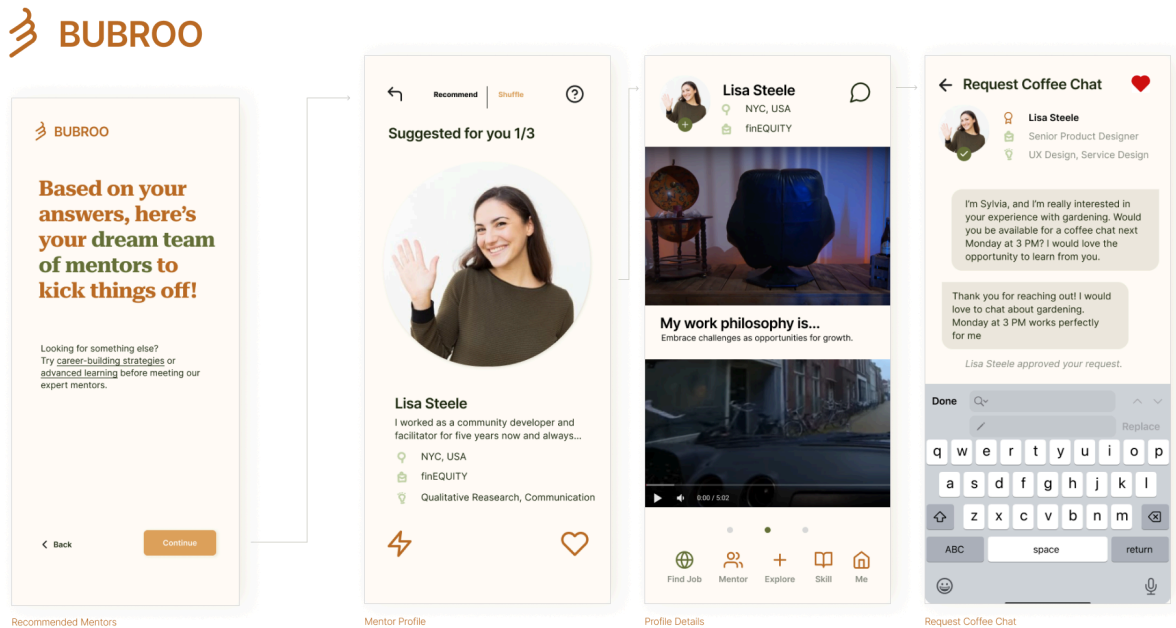

2.1 **Pre-skill Matching:** Users enter skills they excel in during registration.

2.2 **Pre-area Matching:** Users enter areas they wish to improve.

2.3 Upon hitting continue, users are directed to the suggested mentor module.

2.4 Recommendations are based on the pre-matching system.

3. Mentor Module

3.1 Sections: Recommend and Shuffle at the top.

3.1.1 **Recommend:** Displays mentor profiles, including avatar, background, location, and skill sets.

3.1.2 **Like:** A "heart" icon allows users to save mentors to their favorites list.

3.1.3 **Shuffle:** Loads new mentors through the matching system.

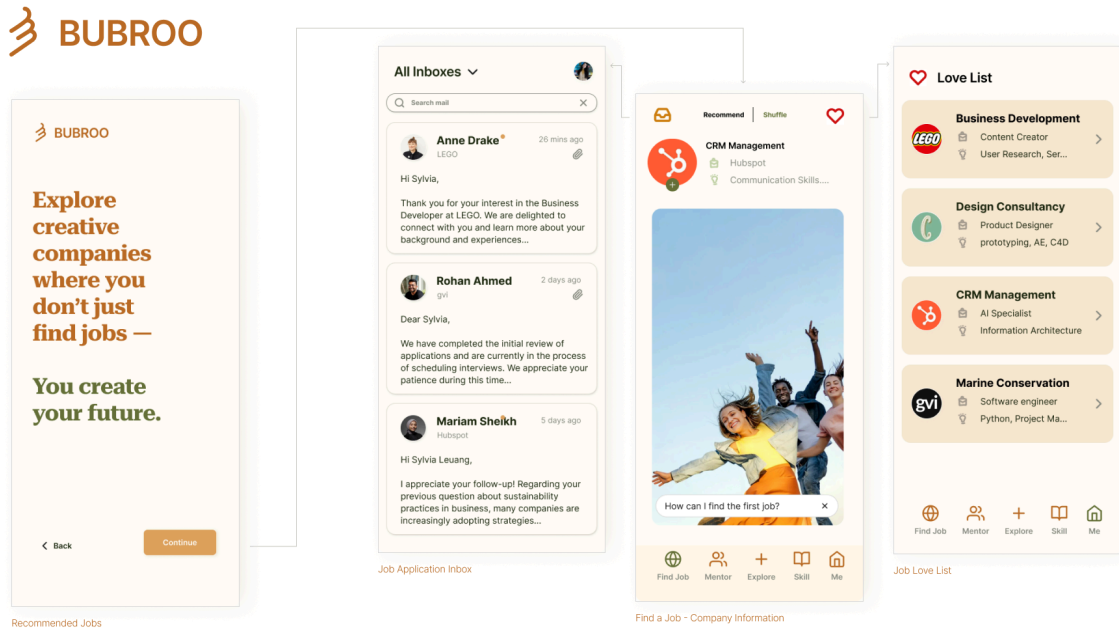

3.2 **Mentor Detail:** Users can view the mentor's work philosophy and video introduction by scrolling down.

3.2.1 **Follow:** Users can add mentors as friends by clicking the "+" next to the mentor's avatar.

3.2.2 **Chat:** The chat icon enables users to communicate with interested mentors, similar to Apple Messages. Users can send text messages, emojis, and pictures.

3.2.3 **Book Chat:** Once the mentor approves, users can engage in free chat for professional guidance.

4. Find Job Module

4.1 Starts with the slogan: “Explore creative companies where you don’t just find jobs—you create your future.”

4.2 Users are directed to company profiles upon continuing.

4.2.1 **Recommend:** Displays company profiles with positions offered and required skills, along with a video/picture job description.

4.2.2 **Search:** A search bar allows users to look for job opportunities by entering keywords such as industries, companies, and positions.

4.2.3 **Shuffle:** Loads new company profiles through the matching system.

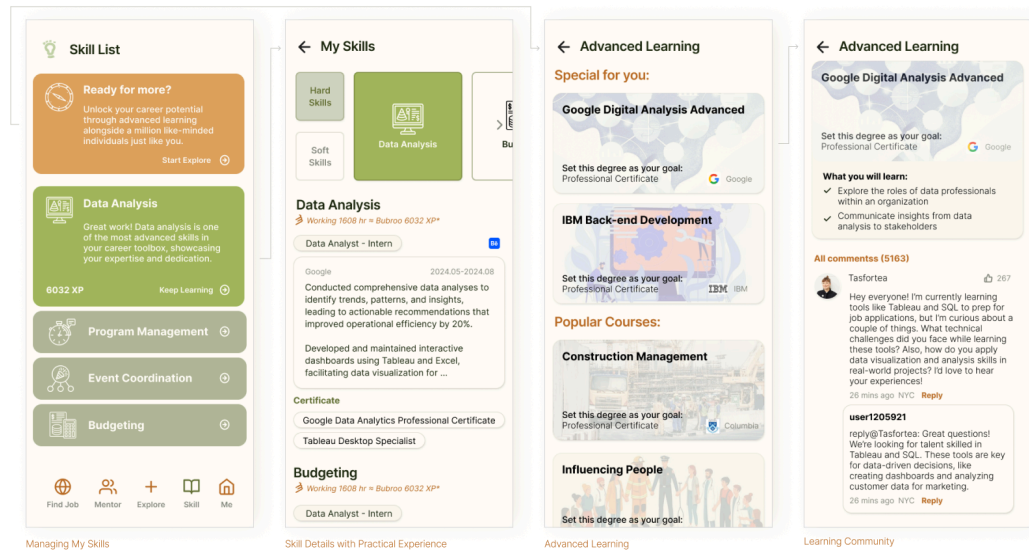

4.2.4 Refreshes current company sets with newly matched profiles.

4.3 **Favorite List:**

4.3.1 The "heart" icon leads to users’ favorite job positions.

4.3.2 **Message Inbox:** The inbox icon shows replies from HR, helping users track their application process.

5. Skill Module

5.1 Interface features two blocks: Ready for More and Data Analysis.

5.2 Advanced Education:

5.2.1 **Start Explore:** An arrow at the bottom of the "Ready for More" block directs users to the course learning module.

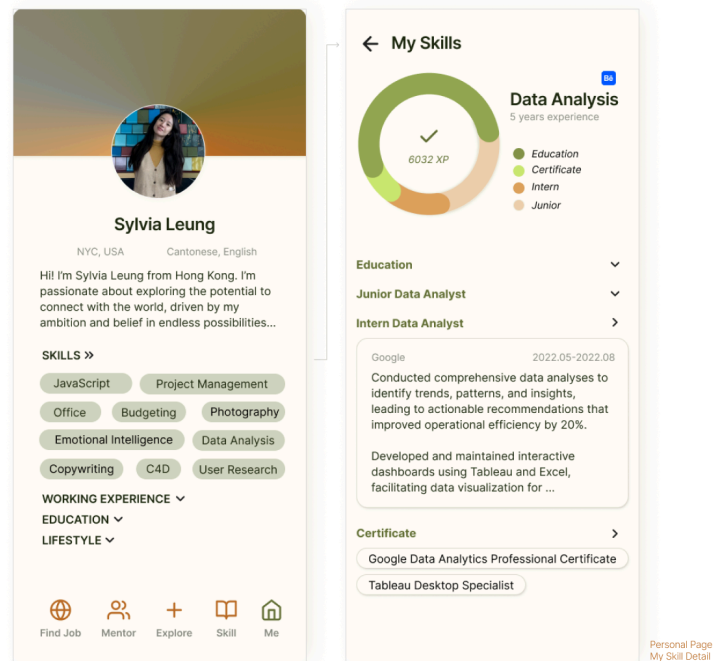

5.3 **Course Page:** Divided into "Special for You" and "Popular Courses." Users can choose courses that align with their career goals.

5.3.1 **Special for You:** Recommended courses based on user matching.

5.3.2 **Popular Courses:** Based on selections by other users.

5.3.3 **Course Detail:** Clicking on a course reveals details and user comments, allowing replies similar to social media.

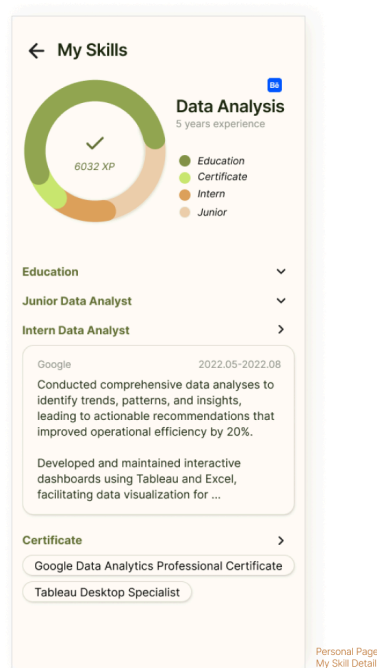

5.4 My Skill Page:

5.4.1 View Detail: Click the "skill" icon to access the user skill interface, featuring a circular graph categorizing professional background into education, certificates, internships, and junior roles.

5.4.2 Note: Users can view details of each category by clicking the arrow next to it.

6. User Profile Module

6.1 The user profile displays location, language, and a brief background description.

6.2 Four main categories: Skills, Work Experience, Education, and Lifestyle.

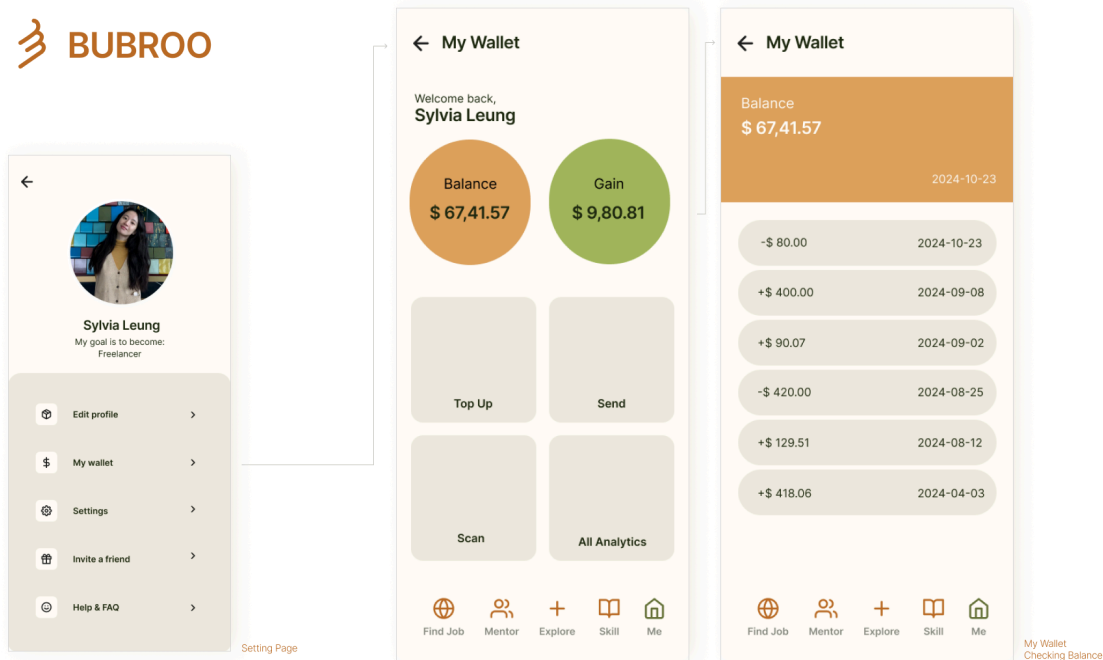

6.2.1 **Skills:** Unfolded by default; clicking on each skill leads to the data analysis module for skill visualization.

6.2.2 **Work Experience:** Displays company, position, and responsibilities. Users can view details by clicking the downward arrow.

6.2.3 **Education:** Provides educational background, including degrees and certificates, with details accessible via the downward arrow.

6.2.4 **Lifestyle:** Represents hobbies, social life, and living habits, with details available through the downward arrow.

Back to User Profile Main Module:

Users can scroll down to access a second interface, featuring five sections: Edit Profile, My Wallet, Settings, Invite a Friend, and Help & FAQ.

Edit Profile Page: Allows users to update their profile information.

My Wallet Page: Displays current balance and gains; users can make transfers and view transaction history.

Settings Page: Users can adjust preferences for a personalized experience.

Invite a Friend Page: Enables sharing the profile link.

Help & FAQ Page: Lists frequently asked questions and answers, with a search bar for additional queries.
